

2nd grade math notes 1-3-2

ExA:

1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 = all

1, 2, 3 = column

3, 6, 9, 12 = all by columns \approx multiplication.

ExB. $473 + 10 = 483 - 100 = 383$

$$383 - 10 = 373 - 10 = 363 + 100 = 463$$

$$463 + 10 = 473 + 10 = 483$$

$$483 + 100 = 583 + 100 = \del{683}$$
